

Core Card Display Configurations

Eight proposed formats for cabinet quotation discussions

TC-01	Trading Card Display Counter	1200 x 550 x 950 mm
TC-02	Long Trading Card Showcase	1500 x 600 x 950 mm
TC-03	Half-Vision Card Counter	1200 x 600 x 950 mm
TC-04	Slanted Trading Card Showcase	1200 x 600 x 1000 mm
TC-05	Pull-Out Card Tray Showcase	1200 x 650 x 950 mm
TC-06	Corner Card Display Counter	600 x 600 x 950 mm
TC-07	Curved Card Display Counter	1000 x 700 x 950 mm
TC-08	Card Display Checkout Counter	1800 x 650 x 1000 mm

Important: these are development proposals, not fixed stock specifications. Final dimensions, clearances, materials, hardware, loading, electrical scope, packing and commercial terms follow approved drawings, samples and quotations.

Trading Card Display Counter

Singles, top loaders and graded cards

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1200 x 550 x 950 mm (L x D x H)
Approximate inches	47.2 x 21.7 x 37.4 in
Development range	L900-1500 / D500-600 / H900-1000 mm
Structure	18mm MDF with HPL or painted finish; recessed plinth
Glass	8mm tempered top; 6mm sides, subject to structural review
Interior	1-2 adjustable glass shelves; optional inclined trays
Access	Lockable rear sliding doors and lower storage
Lighting	Dimmable 4000K LED in concealed aluminum channels
Primary check	Confirm holder fit, access and usable display height

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Long Trading Card Showcase

Several collections of singles

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1500 x 600 x 950 mm (L x D x H)
Approximate inches	59.1 x 23.6 x 37.4 in
Development range	L1500-1800 / D550-650 / H900-1000 mm
Structure	18mm plywood or MDF with metal intermediate support
Glass	8-10mm top and 6-8mm sides; review divided spans
Interior	Two segmented shelves; avoid an unsupported full span
Access	Two rear sliding doors; optional separate locks
Lighting	4000K with serviceable segmented wiring
Primary check	Coordinate intermediate supports and transport split

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Half-Vision Card Counter

Premium singles with reserve inventory

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1200 x 600 x 950 mm (L x D x H)
Approximate inches	47.2 x 23.6 x 37.4 in
Development range	L900-1500 / D550-650 / H900-1000 mm
Structure	18mm MDF with HPL and soft-close storage hinges
Glass	8mm tempered top and 6mm sides
Interior	Upper clear display height approximately 250-350mm, to be detailed
Access	Rear display access and separate storage lock
Lighting	Dimmable LED at the front top edge
Primary check	Separate usable display volume from reserve stock

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Slanted Trading Card Showcase

Front-facing singles and graded cards

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1200 x 600 x 1000 mm (L x D x H)
Approximate inches	47.2 x 23.6 x 39.4 in
Development range	L900-1500 / D550-700 / H950-1100 mm
Structure	18mm panel construction with metal support
Glass	6-8mm slanted tempered panel supported by its frame
Interior	Removable trays inclined 15-30° from horizontal with retaining lips
Access	Lockable rear doors
Lighting	Position strips outside direct glass reflection angles
Primary check	Check viewing height and rear retrieval clearance

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Pull-Out Card Tray Showcase

Sorted singles and graded-card trays

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1200 x 650 x 950 mm (L x D x H)
Approximate inches	47.2 x 25.6 x 37.4 in
Development range	L900-1500 / D600-750 / H900-1000 mm
Structure	18mm plywood; optional steel drawer support
Glass	8mm tempered top
Interior	2-4 pull-out trays with replaceable lined dividers
Access	Lockable full-extension slides; anti-tip design required
Lighting	Display LED; optional tray lighting
Primary check	Confirm each drawer load and extension before release

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Corner Card Display Counter

Continuous corner display

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	600 x 600 x 950 mm (L x D x H)
Approximate inches	23.6 x 23.6 x 37.4 in
Development range	L550-750 / D550-750 / H aligned to straight counter mm
Structure	18mm panels with coordinated joining hardware
Glass	6-8mm tempered glass
Interior	Fan-shaped or triangular tray
Access	Staff-side lockable door
Lighting	Continuous corner lighting
Primary check	Dimensions are an outer envelope; supply a plan drawing

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Curved Card Display Counter

Premium cards and feature displays

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1000 x 700 x 950 mm (L x D x H)
Approximate inches	39.4 x 27.6 x 37.4 in
Development range	Envelope L900-1200 / D650-850 / H900-1000 mm
Structure	Curved substrate with veneer or painted finish
Glass	Curved glass process, radius and thickness to be confirmed
Interior	Shaped tray with retaining groove
Access	Lockable rear access
Lighting	Serviceable curved lighting channel
Primary check	Specify radius, angle and arc length in drawings

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.

Card Display Checkout Counter

Checkout and assisted card sales

Related form reference. The image is not a dimensioned photograph of this proposed model.

Suggested outer size	1800 x 650 x 1000 mm (L x D x H)
Approximate inches	70.9 x 25.6 x 39.4 in
Development range	L1500-2400 / D600-750 / H950-1100 mm
Structure	18mm plywood with HPL and reinforced worktop
Glass	Display portion: 8mm top and 6mm tempered sides
Interior	Separate display and POS zones
Access	Cash drawer, locked storage and cable outlets
Lighting	Display LED with centralized service access
Primary check	Confirm POS envelope and any lower service section

Confirm with the actual holder or package: outside dimensions, retrieval clearance, display count, shelf load, door travel and staff access. Capacity must be calculated from the approved clear space and tested merchandise, not estimated from this reference image.
